

# **Final Presentation**

FE 1 Spring

We have done a lot of practice with descriptive and explanatory writing as well as a lot of public speaking and presentation skills practice. Now it's time to take that knowledge and those skills and put them to good use!

You and your group will work together to create a print advertisement, video advertisement and group presentation of your invention.

Your Invention Project includes:

- Group Presentation (10 points)
- Video Advertisement (10 points)
- Print Advertisement (6 points)
- Preparation and Reflection (4 points)
  - Invention Description
  - Video Storyboard
  - Presentation Outline
  - Individual Reflection

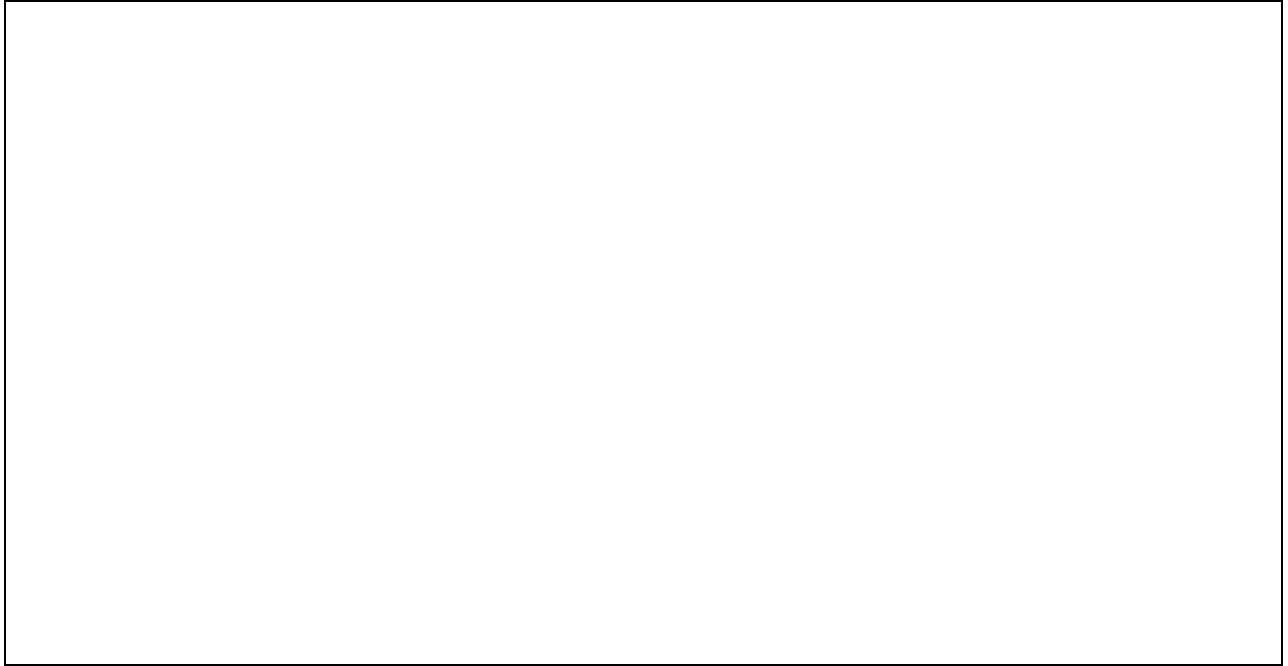

You have already begun preparing for this project and you will be expected to work with your group to complete all of these tasks. You will be given the grading rubrics for each portion of the project and any required materials. You should work primarily independently of the teacher to prepare and finish each part of the project.

Please ask me any questions and discuss your thoughts with me as much as possible. I will be available to help you as much as possible.

All parts of this project will be due on the final day of class when you give your presentation.

## **Invention Description**

Draw and label your invention.

Write a paragraph to describe your invention. Describe what your invention is and how it works. Include a topic sentence, supporting sentences and conclusion; use transition words and descriptive adjectives.

## **Video Storyboard**

Design a storyboard for your video advertisement. You can use this page or your own paper to do this.

## **Presentation Outline**

Make an outline for your presentation. You can use this page or your own paper to do this. This can be handwritten or typed. It is your choice.

## Individual Reflection

Please write your thoughts about your experience and participation in this project. You can use this paper or your own paper. This can be handwritten or typed. It is your choice.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
